

Senior / Principal Civil Engineer

Central London

Gold Investors In People

B Corp Certified

£50,000 - £65,000

Are you looking for an employer that puts their people first?

Do you want to work with a highly collaborative team focused on sustainable urban regeneration and purpose driven projects?

We are currently working with this exact business!

This award winning engineering consultancy is seeking a Senior or Principal Civil Engineer to join their team in Central London.

As a part of a dynamic team, you will work on a wide range of high profile projects, from city wide masterplans to public realm and residential developments. You will have the opportunity to create positive outcomes for the built environment by focusing on key company values such as working for good and restoring and adapting.

What They Are Looking For In The Successful Senior / Principal Civil Engineer

- A minimum of 5 years of post graduation design experience.
- Expertise in the technical design of key infrastructure systems, including water, drainage, highways, and utilities.
- Experience in defining briefs, developing strategies, and undertaking feasibility studies.
- The ability to negotiate with technical stakeholders like the Environment Agency and water undertakers.
- Proficiency in design software such as Autodesk Civil 3D, AutoCAD, Revit, and InfoDrainage.
- A good understanding of sustainable development practices.
- The ability to work both individually and as part of a multidisciplinary team.

Package

- £50,000 - £65,000 per annum, depending on experience.
- Hybrid working with a minimum of 3 days in the office, and flexible options including a 9 day fortnight scheme.
- Aviva Private medical insurance, a comprehensive pension scheme, and life assurance.
- A supported route to chartership with enhanced learning opportunities, and professional membership(s) reimbursement.

- A cycle to work scheme, employee assistance programs, and an annual eyecare scheme.
