

## **Structural Engineer**

**Guildford, Surrey**

**£32,000 - £38,000**

### **Architecturally led projects**

Are you a Structural Engineer with 2-3 years of experience with a passion for designing unique, high end residential projects that make it on TV?

Do you want to join a small, close knit team that values a relaxed culture, work life balance, and clear career progression to partner level?

*We may have the role for you!*

This growing engineering consultancy is seeking a Structural Engineer to join their team in Guildford. They are looking for ambitious and capable individuals to help them grow from 5 to 20 people over the next 5 years. This is a unique opportunity to work on architecturally driven and structurally complex bespoke new build houses, including "Grand Designs" projects.

### **You will be responsible for:**

- Scheming up designs for complex structural projects.
- Preparing structural reports and mark ups for technicians.
- Carrying out some drawing work to support learning.
- As you become more confident, you will take on client facing responsibilities and site visits.

### **What They Are Looking For In The Successful Structural Engineer**

- A Structural Engineer with 2-3 years of post-graduation experience.
- Proficiency in software such as AutoCAD, Tekla Structures, and TEDDS.
- A proactive individual who is capable of working with domestic projects.
- Someone who is keen to work towards or has already achieved chartership.
- An interest in sustainability and a willingness to contribute to new service offerings.
- A team player with a good sense of humour who is looking for a relaxed culture.

### **Package**

- £32,000 - 38,000
- Core hours of 9:00 am - 5:30 pm, with a hybrid working model. Overtime is not expected.
- A supported route to chartership with professional fees paid and a bonus for achieving chartership.
- 25 days holiday plus bank holidays, the option to buy or sell up to 5 days, and a performance based bonus.
